CERTIFICATIONS

AWS - Solutions Architecture Job Simulation, Forage Sep '25

Ethical Hacking Megamind Workshop, Nikistan Media Pvt Dec '24

React Hooks, GreatStack Nov '24

Full Stack React E Commerce Project, GreatStack Sep '24

PROJECTS

Shopper Web App [Link](#) Sep '24 — Nov '24

- Solved the need for a simple clothing storefront by building product listing, category browsing, and cart management features using React, CSS, Node.js, Express, and MongoDB; implemented front-end UI and cart logic to enable a seamless shopping flow.

Marvelous Web App [Link](#) Jan '25 — May '25

- Addressed the need for an online music player by converting YouTube videos to audio and building search and playback features with React, Tailwind CSS, Node.js, Express, MongoDB, and the YouTube Data API; implemented the front-end player and backend conversion endpoints.

AI Interview IQ [Link](#) Jun '25 — Jul '25

- Tackled mock interview practice by creating an AI voice-agent platform with Next.js, TypeScript, Node.js, Express.js, and Firebase that generates interviews and delivers feedback using a custom interview flow; built interview orchestration and feedback features for users to practice responses.

Billing Software [Link](#) Nov '25 — Nov '25

- Solved inventory and billing needs by building a MERN stack application with Tailwind CSS that supports product/stock management, barcode printing, order and bill printing, WhatsApp integration, and staff attendance; developed the dashboard and core billing features.

SKILLS
